

A butterfly's life

Directed by: Renato Cottalasso

Produced by: Piviere Film

Duration: 52'

Versions: 

Format: SD

The lively story of a butterfly, which becomes adult - and therefore able to fly - after two years. Through different stages of larva and countless dangers, we follow the life of this beautiful animal specie and of other animals living the same environment. All this documentary has been shot in one of the most important areas for butterflies in the whole Italy, the Park of Antola.
